

KV Small-type distribution boards fit for the new standard IEC 60 364-4-41

New standard IEC 60 364-4-41 „Protection against electric shock”

For all sockets up to 20 A (single- and multiphase) a RCD with $\Delta_N \leq 30 \text{ mA}$ is demanded as additional protection.

KV Small-type distribution boards with up to four disconnectable N-potentials in one bar enable the installation of RCDs without additional efforts or accessories.

Presently with the new labelling for FIXCONNECT® terminals in the scope of delivery!
